Curriculum Vitæ

updated: April 2018

Current Positions

- *Doctoral Student*, Interdepartmental Group in Biostatistics, University of California, Berkeley
Advisors: Mark van der Laan and Alan Hubbard
- *Fellow/Trainee (2017–2018)*, UC Berkeley NIH Biomedical Big Data Training Program

Research Interests

- Methodology nonparametric statistics, machine learning, causal inference, semiparametric theory, targeted minimum loss-based estimation, data-adaptive inference, adaptive designs, survival analysis, statistical genomics, reproducible research, statistical software development and data science.
- Applications precision medicine, computational biology and bioinformatics, epidemiology, randomized clinical trials, vaccine efficacy trials, healthcare policy and public policy.

Education

- 2016–present **Doctor of Philosophy (Ph.D.) in Biostatistics**, *University of California, Berkeley*.
Designated emphasis in Computational and Genomic Biology (Center for Computational Biology)
Committee: [Mark van der Laan](#) (co-chair), [Alan Hubbard](#) (co-chair), [Nicholas Jewell](#), [Fernando Pérez](#)
Dissertation: Topics in Nonparametric Causal Inference and Statistical Data Science
- 2016–2017 **Master of Arts (M.A.) in Biostatistics**, *University of California, Berkeley*.
Committee: Mark van der Laan (co-chair), Alan Hubbard (co-chair), Martyn Smith
Thesis: Generalized Application of Empirical Bayes Statistics to Asymptotically Linear Parameters
- 2011–2015 **Bachelor of Arts (B.A.)**, *University of California, Berkeley*.
Molecular & Cell Biology, Psychology, Public Health (triple major)

Accreditation, Open Education, and Training

- 08/2018 **Biomedical Big Data Training Certification**, *University of California, Berkeley*.
- 10/2017 **Instructor Training Program Certification**, *Software and Data Carpentries*.
- 04–11/2016 **Genomic Data Science Specialization**, *Johns Hopkins University via Coursera*.
- 02–12/2015 **Data Science Specialization**, *Johns Hopkins School of Public Health via Coursera*.

Research Experience

- 01/2017–present **Graduate Student Researcher**, *University of California, Berkeley, Berkeley, CA*.
Advisor: Prof. Mark J. van der Laan, Division of Biostatistics & Department of Statistics
- Development of theory and methods for nonparametric statistical and causal inference, including stochastic treatment regimes, machine learning, survival analysis, and data-adaptive inference.
 - Development and founding member of a software ecosystem for targeted statistical learning and inference in collaboration with an initiative of the Bill and Melinda Gates Foundation.

- 08/2015–
present **Graduate Student Researcher**, *University of California, Berkeley*, Berkeley, CA.
Advisor: Prof. Alan E. Hubbard, Division of Biostatistics
- Development of methods for robust statistical inference with applications in high-dimensional biology, including data-adaptive hypothesis testing and moderated statistics for targeted statistical learning.
 - Statistical analysis of high-dimensional genomics and epigenetics data, as well as bioinformatical support for experimental work in molecular biology and environmental epidemiology.
- 03/2014–
05/2015 **Undergraduate Student Researcher**, *University of California, Berkeley*, Berkeley, CA.
Supervised by Prof. Mark T. D’Esposito, Helen Wills Neuroscience Institute
- Study of the properties of resting-state voxel connectivity in the visual system using fMRI data.
- 05/2012–
02/2015 **Undergraduate Student Researcher**, *UCSF Medical Center*, San Francisco, CA.
Supervised by Dr. Paul S. Larson, Department of Neurological Surgery
- Analysis of outcomes from deep brain stimulation surgery using interventional MR imaging.
- 08/2012–
05/2014 **Undergraduate Research Assistant**, *University of California, Berkeley*, Berkeley, CA.
Supervised by Prof. Robert T. Knight, Helen Wills Neuroscience Institute
- Study of disruptions in lexical selection from neurological disease based on human EEG recordings.
- 08/2011–
05/2013 **Undergraduate Research Assistant**, *University of California, Berkeley*, Berkeley, CA.
Supervised by Prof. Leslea J. Hlusko, Department of Integrative Biology
- Data collection for studies in quantitative genetics concerning the evolution of hominid dentition.

Industry Experience

- 08/2018–
12/2018 **Research Biostatistician (Intern)**, *Kaiser Permanente Division of Research*, Oakland, CA.
• Statistical prediction using ensemble machine learning methods and data visualization for a large-scale observational healthcare study examining conversion from pre-diabetic to diabetic status.
- 01/2016–
03/2016 **Data Scientist (Intern)**, *Cogitativo, Inc.*, Berkeley, CA.
• Applied modern statistical methods, data analytic tools, and data product design to problems in the healthcare services space, producing client-side tools for interactive data mining and visualization.
- 03/2016–
present **Private Consultant**.
• Consultation on problems in statistics, data analysis, and software development for data science.

Fellowships and Scholarships

- March 2018 The Wellness Scholarship in Honor of Chin Long Chiang, School of Public Health, University of California, Berkeley
- 2017–2018 Fellowship/Traineeship (pre-doctoral), NIH BD2K Biomedical Big Data Training Program, University of California, Berkeley
- July 2017 Travel and Registration Scholarships, Summer Institute in Statistics for Big Data, Department of Biostatistics, University of Washington
- June 2015 Travel and Registration Scholarships, Summer Institute in Biostatistics, Department of Biostatistics & Medical Informatics, University of Wisconsin — Madison

Awards and Honors

- May 2017 Honorable mention (rank 3 – 6), Thomas R. Ten Have Award for junior researchers, for the poster “Nonparametric variable importance for continuous exposures with applications in high-dimensional biology”, Atlantic Causal Inference Conference

Conferences and Workshops

Contributed or Invited

- August 2018 Joint Statistical Meetings; Vancouver, BC, Canada
July 2018 BioC: Where Software and Biology Connect; Toronto, ON, Canada
May 2018 Atlantic Causal Inference Conference; Pittsburgh, PA, USA
May 2017 Atlantic Causal Inference Conference; Chapel Hill, NC, USA
July 2016 Statistical Causal Inference and Applications to Genetics, Centre de Recherches Mathématiques, Université de Montréal; Montréal, QC, Canada

Attended or Visited

- March 2018 Eastern North American Region of the International Biometrics Society Spring Meeting; Atlanta, GA, USA
July 2017 Summer Institute for Statistics in Big Data, Department of Biostatistics, School of Public Health, University of Washington; Seattle, WA, USA
July 2016 Computational Genomics Summer Institute, Institute for Pure and Applied Mathematics, University of California, Los Angeles; Los Angeles, CA, USA
June 2016 BioC: Where Software and Biology Connect; Stanford, CA, USA
June 2015 Summer Institute in Biostatistics, Department of Biostatistics & Medical Informatics, University of Wisconsin — Madison; Madison, WI, USA

Professional Affiliations

- 2017–present Western North American Region of the International Biometrics Society (member)
2016–present Berkeley Institute for Data Science (member)
2016–present American Statistical Association (member)

Professional Service

- 2018 Committee Member, Graduate Admissions Committee, Interdepartmental Group in Biostatistics, University of California, Berkeley; Berkeley, CA, USA
2018–present Lesson Maintainer, “Version Control with Git” Workshop Materials, Software Carpentry

Teaching Experience

Teaching Assistantship

- Spring 2018 *Targeted Learning in Biomedical Big Data* (PBHLTH 290), with Prof. Mark J. van der Laan, Division of Biostatistics, University of California, Berkeley
- o Developed all laboratory materials and homework assignments, provided weekly laboratory instruction, and supervised course projects, as the sole graduate student instructor for the pilot offering of this course.
 - Course website: <https://vanderlaan-group.github.io/tlbbd-sp2018/>
 - Laboratory materials: <https://github.com/tlbbd-spring2018>

Short Course and Workshop Instructorship

- 2017–present **Software Carpentry** — workshop instruction aiming to promote and foster skills, best practices, and workflows for software development and scientific computing in research settings.
- o Jul. 2018; “Scientific Computing with Bash, Git, and Python”; workshop instructor (co-instructor: TBD); Berkeley Institute for Data Science; website: <https://bids.github.io/2018-07-16-bids/>
 - o Jan. 2018; “Scientific Computing with Bash, Git, and R”; workshop helper with K. Ottoboni & T. Hart; Berkeley Institute for Data Science; website: <http://www.kellieottoboni.com/2018-01-11-bids/>
- 2017–present **Data Carpentry** — workshop instruction centering on core skills and best practices for the application of data analytic principles and tools for scientific computing in research.
- o May 2018; “Software Tools for Genomic Data Analysis”; workshop instructor (co-instructor: A. Orr); Lawrence Berkeley National Laboratory; website: <http://code.nimahejazi.org/2018-05-03-LBNL/>
 - o Aug. 2017; “Software Tools for Genomic Data Analysis”; workshop helper with K. Hertweck & E. Becker; Lawrence Berkeley National Laboratory; website: <https://k8hertweck.github.io/2017-08-07-LBNL/>
- Aug. 2017 Module Instructor, *R Bootcamp*, with Dr. Christopher J. Paciorek, Department of Statistics, University of California, Berkeley
- o Presented a module on programming concepts in R (iteration, flow control, writing functions), contributed new materials on modern functional programming, and helped in one-on-one instruction of participants.
 - Short course description: <https://statistics.berkeley.edu/computing/r-bootcamp>
 - Workshop materials: <https://github.com/berkeley-scf/r-bootcamp-2017>

Miscellaneous Teaching

- 2017–present Private Tutor in Statistics (introductory, computing, and intermediate-level theory courses)
- 2015–2016 Tutor in Mathematics & Statistics, Athletic Study Center, University of California, Berkeley
- 2013–2015 Tutor in General Chemistry, Student Learning Center, University of California, Berkeley

Computing Skills

- Systems: macOS (OS X), Linux (Ubuntu, Fedora, Red Hat), UNIX
- Languages: R, PYTHON, JULIA, C++, shell scripting, \LaTeX , SQL, MATLAB
- Apps/Other: Amazon Web Services (EC2), Google Compute Engine, Git, Microsoft Office
