**Constancio Hernandez\*** (chg@xanum.uam.mx), Av. San Rafael Atlixco No. 186, Col. Vicentina, Delegacion Iztapalapa, 09340 Mexico, D.F., Mexico. *Some Remarks on the New Schemes in Electronic Publishing in Mathematics*. Preliminary report.

We analyze the emergence of new models of e-publishing from the experience of e-archive and Independent Journals. In the next few years the power and availability of resources, in hardware and software, to create and disseminate publications will increase. So, the schemes in journal publishing is changing and will change more. Journals face the problem of enhance its quality and to adopt standards that make easy the access to scientists today and in the future. The paper will present some considerations in these issues.
