Now the crappy machines are breaking down, too? How much is Soro's paying you guys? I will never vote unless it is with paper ballots. I knew when Bush allowed machine ballots the sheep were in big trouble. Ken is a hero, and thankfully a Christian, we win in the end, Satan doesn't get much time.

Jovan Hutton Pulitzer asks if 28% of ballots not counted in Windham, NH is fraud or failure

TNR · 1 week ago

Editor's note: The town of Windham, New Hampshire, is presently [conducting an audit](#) of its Nov. 3, 2020 election, in which a hand recount one week later revealed that four Republican candidates [each gained about 300 votes not counted on Election Night](#). Vermont uses [the same AccuVote-OS vote tabulators](#) owned by Dominion and managed by LHS Associates, of Salem, N.H. The following article by Steve MacDonald has been republished with permission [from GraniteGrok](#).

By Steve MacDonald

Jovan Hutton Pulitzer featured the Windham election and audit in a recent episode of his podcast. It's not a lot of new information for our readers, but you'll want to listen because what is new might amaze you.

He talks about folded ballots as part of the integrity of the process. Not machine failure but a failure of people tasked with ensuring election integrity missing or ignoring what appears to be the issue in Windham, and possibly most of New Hampshire, going back decades.

Jovan Hutton Pulitzer

The AccuVote machines can and will misread ballots that have been folded – as in, mailed in – as in vote by mail. But not just in 2020.

Alvin See discussed [the problem in his op-ed this morning](#). The folds, read by the scanner, crate overvotes that invalidate actual votes. In the case of Windham, the result is that 28% of ballots were likely not counted.

No conspiracy theories, no secret programming voodoo, an actual failure of the equipment to do what we ask of it under the circumstances with which elections have been held.

The problem, uncovered by the hand recount in Windham, is exactly what we've been trying to discover and what no one else wanted to address.

From the AG to the Sec. of State, to the ruling class infrastructure

This comment has been preserved and will not be deleted. Last night, I was informed that it has been turned into the NH Attorney General's office as Philip Start feels that he has been threatened.

I cannot remove it as it is now considered to be possible evidence.

“Congratulations to the great Patriots of Windham, New Hampshire for their incredible fight to seek out the truth on the massive Election Fraud which took place in New Hampshire and the 2020 Presidential Election,” Trump wrote on May 6 on his now-defunct blog. “People are watching in droves as these Patriots work tirelessly to reveal the real facts of the most tainted and corrupt Election in American history.”

EXCLUSIVE: Why is Auditor Harry Hursti, Who Uncovered the Fatal Flaws in Diebold Memory Cards in 2005, Hiding These Flaws in the Windham, NH Audit This Week?

Only one of three auditors in Windham, New Hampshire, stuck around and did any work on the third and fourth days of the scheduled four-day onsite audit in Windham this past week.

Computer scientist Dr. Harri Hursti ended up, strangely, being the only team member left in Windham, NH to forensically audit both the town’s **Diebold memory cards** and their **AccuVote Optical Scan (AV-OS) tabulating systems**.

Both of Harry’s colleagues, Dr. Philip Stark and Dr. Mark Lindeman, were unaccountably missing for *both* days of this pre-planned, two-day audit of these Diebold election products. This appears to be in violation of the April 12, 2021, **NH law, SB 43**, which states there **shall** be a “*forensic election audit team*” of three “*to complete the audit.*”

BREAKING EXCLUSIVE: UN, US, Facebook and Smartmatic Executives Conspired Together Before the 2020 Election and Many of Same Officials Now Trying to Stop or Derail 2020 Election Audits Taking Place

The UN and some US entities worked before and after the 2018 and 2020 elections and many of the same players in these efforts are now trying to **derail or stop 2020 election audits in the US today**.

Harri Hursti, Ph.D., computer scientist, and Elizabeth Howard, Cybersecurity and Elections Counsel of the radical, Soros-funded nonprofit, the *Brennan Center for Justice* in Manhattan, are both experts in election cybersecurity. In 2018 they were part of a UN initiative surrounding election cybersecurity and now they are part of efforts to **derail or sabotage audits of the 2020 election**. Howard in Maricopa

1. To Vote, Mark Only One Ballot in the circle to the right of your choice. For each office, mark only one circle. If you vote for more than the stated number of candidates, your vote for that office will not be counted.

2. To Vote for Write-In, To vote for a person whose name is not printed on the ballot, write in the name of the person in the "write-in" space. Completely fill in the oval to the right of your choice.
